09181234567 (number)

Date: April 22, 2031

Title: Application for Junior Software Developer Work

Greetings!

My name is Loui Dominic P. Naquita, a graduate of Pamantasan ng Lungsod ng Valenzuela from A.Y. 2027-2028 and of the University of the Philippines Diliman from A.Y. 2031-2032.

I would like to formally apply to your corporation, Google Philippines, as a Software Developer I, a junior software developer job in your company.

Colleagues from my former work at IBM Philippines recommended me to seek application and opportunities here at Google Philippines because of its world-class expertise in technology, innovation, and entrepreneurship, which I wholeheartedly seek in a computer science-related career. In addition to this I would also like to be a part of the bigger multinational technology community both locally and internationally, and I believe that your company is already at credible and significant levels to take this leap.

Attached here are my curriculum vitae and portfolio of certifications and previous software development project documentations in print format.

If, upon consideration, you desire to call me for an interview regarding my application, I would be delighted to discuss it with you at your most convenient schedule.

Respectfully yours,

Loui Dominic P. Naquita
